

## The Benefits of Quality Quartz Tile

### BEGIN SAVING NOW!

RQT requires a modest initial cost with the lowest Total Cost of Ownership, (TCO), vs. VCT or VET. It will perform better and last longer than most LVT.

RQT affords a fast ROI. Why keep paying for expensive upkeep or taking the hit for early replacement?

RQT's annual cleaning cost per square foot is a fraction of the cost of a traditional strip and recoat wax program. Compare the cost of an annual strip and recoat program to the annual cost of maintaining RQT, and you will see the savings add up quickly.

### Best in Class:

Rikett™ Quartz Tile (RQT) creates welcome and practical spaces where students and staff will thrive. RQT is perfect for use in public or private schools, pre-schools, K-12, Colleges and Universities. RQT works best in corridors, classrooms, cafeterias, labs, gymnasiums, libraries, offices, and dormitories. No-wax maintenance, combined with a 20-year wear-through warranty, makes Rikett™ Quartz Tile the perfect flooring for all educational facilities.

### RQT Conforms with:

- LEED v4.2 ID+C, BD+C
- CHPS 2019 Core Criteria 3.0 EQ 6.1.2
- MAS Certified Green Program
- FloorScore® by SCS

### Environmentally Responsible:

Rikett™ Quartz Tile, (RQT), contains up to 70% naturally abundant quartz minerals. A long useful life, locally sourced natural materials, and a 0% waste manufacturing practices make Rikett™ quartz tile a smart choice for your sustainable facility.

Rikett™ Quartz Tile is 100% recyclable and adds excellent value to a LEED Scorecard. It passes the CA #1350 test required in LEED v4.2 iEQ 4.3 for low VOC flooring materials. RQT is 3<sup>rd</sup> party certified by FloorScore® and by MAS Certified Green®. It also uses bio-based plasticizers, contains no orthophthalates, and passes the CPSIA Materials Analysis test for the safety of plastics in children's toys.

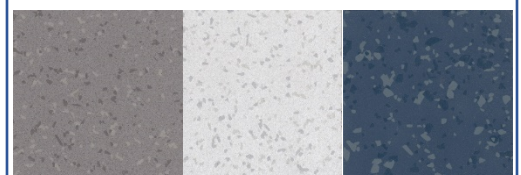

### Vibrant Colors, Unique Styles:

Rikett™ Quartz Tile, (RQT), comes in 4 new styles and 63 stocking colors in a 24" x 24" size. A strong emphasis on patterned Gray and Beige neutrals is accompanied by trending accent colors and selection of traditional school colors.

### The new RQT color lines are:

- Classic – Solid color with striations (24 SKUs)
- CAMO – Large chip, tone-on-tone (7 SKUs)
- Medley – Medium chip, tone-on-tone (28 SKUs)
- Rain – Micro-chip, tone-on-tone. (4 SKUs)
- Solids – Solid, matching base colors (10 SKUs)

### Large 24" X 24" Designer Format

### Retail Performance:

A Shop Rite grocery store in NJ enjoys the colorful aesthetics and easy to clean benefits of Rikett Quartz Tile. The durable “no wax” commercial grade polyurethane coating allows high traffic retail stores to keep optimum appearance levels with a minimum of cost and downtime to maintain the floor's desired appearance.

### Welcome Heavy Wheeled Traffic:

Rikett™ Quartz Tile is no stranger to forklifts, pallet jacks, hospital beds, carts, equipment, and displays. RQT provides unprecedented performance with the resilient flooring industry's highest compressive strength – up to 3,500 psi.

RQT uses 70% quartz mineral and no cheap filler that might weaken the structural integrity of the tile. On the Mohs Scale of Hardness Diamonds are rated 10, Quartz is 7 and Calcium Carbonate is 3. Most VCT has a PSI no higher than 250 because it uses a very high percentage of calcium carbonate filler. No wonder why quartz tile performs so well in commercial and industrial settings!

### RQT Provides Superior Performance:

- Modest “First Cost”.
- Homogenous construction
- 70% Natural Quartz Mineral
- No color wear through
- Survives heavy impact – 3,500 psi
- Flexible, won't crack like VCT.
- Resists scratches better than LVT.
- Extremely low absorption rate.
- Resists permanent stains.
- No-Wax polyurethane coating.
- Inexpensive to maintain.
- 20 year limited wear warranty.
- Lowest Total Cost of Ownership
